

DUBLIN UNDER MARTIAL LAW

British Regulars Arrive From Belfast and Capture Points From Rebels.

London, April 23.—British regulars from Belfast and England are now in Dublin and have recaptured from the revolutionary faction several important centers which the members of the Sinn Fein party and their adherents had occupied. These include St. Stephen's Green and Liberty Hall.

As a measure of precaution martial law has been proclaimed in the city and county of Dublin and the official announcement is made that drastic steps are being taken to suppress the movements in Ireland and arrest all responsible for it.

Baron Wimborne, lord lieutenant of Ireland, forwarded advices from Dublin to the effect that the situation was satisfactory and that news from the provinces was reassuring. He placed the number of insurgents killed at eleven. A dispatch from Tralee, county of Kerry, says that a sensation has been caused there by the arrest of a prominent member of the Tralee Irish volunteers, Austin Stack. An accountant in the general postoffice at Dublin, Cornelius Collins, has also been taken into custody. Both are charged with conspiracy in aiding the importation of arms from an enemy.

CAPTURE IMPORTANT REBEL.

Another man of unknown nationality has been arrested. His identity has not been disclosed, but he was conveyed to Dublin under a strong escort.

The men connected with the filibustering expedition now in the hands of the government include Sir Roger Casement, two Irish confederates and twenty-two Germans comprising the crew. The chief importance of the capture lies in the revelations made of an extensive plot having ramifications in Germany, Ireland and Amer-

ica. Irish-Americans are said to have been largely instrumental in financing the revolutionary movement.

The revolutionary expedition consisted merely of a submarine and a 1100-ton steamer, which approached the coast at different points. Casement and his companions landed in a row boat from the submarine.

When arrested Casement is reported to have maintained a good front and apparently was without hope of escaping death for treason. It is believed that his trial and condemnation will be speedy, although for the present it is not possible to say whether he will be executed.

Representatives of the American embassy have been in conference with the officials in charge of the case, presumably regarding the American ramifications.

REBELS LOSE 36 AT DUBLIN.

In the course of a statement in the house of lords Tuesday afternoon, Lord Lansdowne said that the rebels in Dublin had made a half-hearted attack on Monday on Dublin castle. There was now a complete cordon of troops around the center of Dublin, he added.

The casualties at Dublin, according to Lord Lansdowne's statement, were fifteen killed and twenty-one wounded, besides two loyal volunteers and two policemen killed and six loyal volunteers wounded.

Juggernaut a Black Stone.

Juggernaut, "Lord of the World," an idol in the temple at Puri in Orissa, India, was formed out of an irregular pyramidal black stone with two large diamonds for eyes and with its nose and mouth painted vermilion, an exchange says. It is said more than 1,000,000 pilgrims formerly visited the temple and god each year. It was customary for many of the fanatics to throw themselves under the car bearing the idol to be crushed by its wheels. The temple of Juggernaut was built in 1198 at a cost estimated at \$2,500,000. Twelve persons were said to have been killed at Juggernaut's festival held in 1873. Year by year attendance at the festival dwindled until 1878, when the celebration was such a failure that it was discontinued.

A CARD.

I desire to inform the public that I am now with the Waller & Trice Co., and, in the future, can be found at their establishment, where I am better prepared than ever before to handle any business entrusted to me in either the furniture or undertaking department. I wish to thank my friends for past favors and would be pleased to have them call on me at my new quarters.

H. L. HARTON.

St. Louis is to have a school for the deaf to cost \$50,000.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 20 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

ENCAMPMENT IS INVITED

State Troops To Be Asked To Hold Annual Camp Here.

Y. M. C. A. MATTER UP

Hopkinsville Business Men's Association Holds Busy Session.

A brief but busy session of the H. B. M. A. was held Thursday night with two important matters considered.

The question of inviting the State Encampment of Kentucky troops to Hopkinsville in August, postponed from a former meeting, was acted upon and the encampment asked for. Paducah is also after the camp. It will be necessary to raise a bonus of at least \$1,500 to get the troops here. The encampment would last for a month and there would be three regiments of 1,000 men to stay ten days each.

The matter of starting a campaign to finish the Y. M. C. A. building was discussed by Mr. C. A. Tevebaugh, of the State Y. M. C. A. He dwelt at length upon the advantage of the Y. M. C. A. and told of various towns that maintain buildings.

Judge W. P. Winfree made a motion, seconded by A. D. Noe, Sr., that it was the sense of the meeting that Hopkinsville wants a Y. M. C. A. building completed as early as possible. This passed unanimously and Mr. Tevebaugh stated that the state organization was ready to come and help in the campaign whenever called upon.

President J. O. Cook presided at the meeting and also presided over the mass meeting into which the H. B. M. A. was resolved while discussing the Y. M. C. A. matter.

NOTHING TO REPORT.

During our first summer in the trenches there were days, sometimes weeks, at a time when, in the language of the official bulletins, there was "nothing to report," or "calm" prevailed "along our entire front." From the point of view of the war office, these statements were doubtless true enough. There were no great battles, there was no wholesale slaughtering of soldiers. But from Tommy Atkins' point of view, "calm" was putting it somewhat mildly. Life in the trenches, even on the quietest of days, is a long battle of British resourcefulness versus German ingenuity. Snipers, machine gunners, artillerymen, airmen, engineers, signalmen of the opposing sides, vie with each other in daring and skill in order to secure that coveted advantage, the morale. Tommy calls it the more-ale, but he jolly well knows when he has it and when he hasn't.—James Norman Hall, in Atlantic.

DODGED THE QUESTION.

The Installment Collector—Are you sure your mistress isn't in?
The New Maid—I hope you don't doubt her word, sir.

JUST THE REVERSE.

Physician—Is yours a case of long standing?

SOMETHING LACKING.

"I believe they call this body of water a bight?"
"Yes, sir."
"Then where are all the barks?"

A DELUSION.

"Fathead tells me he is paving his way to fortune."
"He thinks he is; he has been buying gold bricks."

AH!

"That's a beautiful chip hat you've got, but isn't it 'way out of style?"
"Yes. It's a chip of the old block."—Browning's Magazine.

High Gasoline Sends Dinky to the Scrap Heap.

The high price of gasoline is chiefly responsible for the retirement from service on the Hopkinsville-Princeton branch of the Illinois Central railroad of the gasoline motor train which has been so popular for several months. The motor train was put on when gasoline was cheap. Then it cost about \$6 per day less to operate it than the usual coal burning locomotive. Now that gasoline is so high, and getting higher, coal as fuel is the cheapest. Therefore the motor has been sent into retirement and the locomotive has returned to duty.

Using Sour Milk.

Very often sour milk is thrown away because the ignorant cook does not know how to make use of it. Sour milk may not only be used for biscuit but for waffles, gingerbread, cake of various kinds and even salad dressing and ice cream, provided that it is properly sweetened with soda. Thick sour milk requires the proportion of an even teaspoonful of soda to each pint of the milk. Thin milk, of which there is less curd than whey, requires more soda. The soda should always be well dissolved in the milk or sifted into the flour if it is not to collect in lumps and show its presence.

Willing to Compromise.

One evening at the supper table Johnnie told his father that Willie, his brother, had used profane language at school. Willie, of course, denied it, but Johnnie insisted that he heard him. The father said, "Eat your supper, William, and then I will settle with you." Willie sat in silence for some time, then he looked up and said, "Papa, I'll tell you how to settle this. Just say nothing more about it."

Death of Farmer.

Hodge F. Rice, a Daviess county farmer, died April 25 at the Western State Hospital of tuberculosis, aged 49 years. He was received here about three weeks ago. The body was interred in the hospital burying ground.

DIED IN HER SLEEP

Mrs. Thomas Simpson Failed to Wake When Her Baby Cried.

Mrs. Thomas Simpson, aged 37 years, died very suddenly shortly before day, Thursday morning. About 3 o'clock she was awake and caring for her infant, a child seven weeks old. About fifteen minutes later the child began to cry again and when Mrs. Simpson did not stir to attend to the child, her husband called to her and found that she was dead. She had evidently expired of heart disease. She is survived by her husband and four children, the oldest daughter a bride of a few days.

Nish in History.

It was under the walls of Nish, ancient Naissus, that the Emperor Claudius destroyed an army of invading Goths in A. D. 269. It was here, also, that the Emperor Constantine the Great was born in A. D. 274. Nish was destroyed by Attila and his Huns in the fifth century, and in the ninth century the Bulgarians became its masters. The Hungarians and the Byzantines possessed it in turn in the eleventh century, and next it fell into the hands of the Serbians, who entertained the German Emperor Frederic Barbarossa, and his crusaders in the city.

Beautiful European City.

Agram, in Croatia, is one of the most popular cities in Europe, because years ago its public-spirited citizens got behind a movement and carried out a plan for an extensive park. "The city has a population of only about 100,000 persons, but everywhere it is known and spoken of as the city of beautiful parks. Few persons pass through on a train that do not return. They are drawn back by reason of the beauty of the park. The city spent more than one million dollars to set it off properly."

Holt Price, Jr., Hurt.

Holt Price, Jr., aged 11, a grandson of Mr. B. W. Harned, of this city, was run over by an automobile in St. Louis and seriously injured, but not fatally. He was dragged some distance after being struck.
